Race car design is one of the most fascinating and yet one of the most complex aspects of the racing world. The design teams in the many motorsport categories are constantly developing new solutions with one single goal in mind: to make a car that, in combination with the driver, travels the distance of a circuit in an amount of time smaller than any other driver/vehicle combination present in ...

The Decepticons emerged from the gladiatorial State Games, which caused Megatron's rise to public prominence - in the aftermath of the destructive Vos-Tarn War, Megatron was able to use his fame and charisma to unite both the survivors and the planet's malcontents into a new army. His plan was to turn Cybertron into a mobile cosmic dreadnought and conquer the galaxy.

The 82nd Engineer Combat Regiment was authorized as a unit of the United States Army on December 19, 1942 and activated in January 1943 at Camp Swift, Texas. Although recruits arrived from across the nation, New York (I was inducted at Ft. Niagara), Pennsylvania and Louisiana seemed to dominate the unit. Training began as the 82nd Engineer Combat Regiment but under the army’s reorganization ...

British Stock-Car Racing from 1950's to 1970's. My JUNK SHOP principles: First, I don't gather photos from the Internet; everything on this site has been sent to me personally by a stock car or drag racing fan, making it a kind of community collection. Naturally, they may have donated their photos elsewhere as well.

Stock-Car Racing in Britain, 1950's-1970's
The fifth-gen Supra is an incredibly capable sports car, but it isn't a full-on Toyota.
generation A80 was a legend in its own time. The instant it left the market, demands for its return were universal among enthusiasts. When their prayers were answered, no one could have been prepared for what, to the Toyota faithful, seemed like the ultimate betrayal — a flagship built almost ...
