Membership with the American Society of Evidence-Based Policing is open to police officers, professional organizations, research institutions, community groups, and any other organization working in or having an interest in making a positive impact in the criminal justice field through using the best available research evidence.
The American Society of Evidence-Based Policing...
Evidence-based nursing (EBN) is an approach to making quality decisions and providing nursing care based upon personal clinical expertise in combination with the most current, relevant research available on the topic. This approach is using evidence-based practice (EBP) as a foundation. EBN implements the most up to date methods of providing care, which have been proven through appraisal of...

Evidence-based nursing - Wikipedia
This study aimed to review the literature describing and quantifying time lags in the health research translation process. Papers were included in the review if they quantified time lags in the development of health interventions. The study identified 23 papers. Few were comparable as different studies use different measures, of different things, at different time points.

The answer is 17 years, what is the question...
Barriers to Opportunity: Implicit Bias & Structural Racialization. As the Kirwan Institute works to create a just and inclusive society where all people and communities have opportunity to succeed, we have become increasingly mindful of how race and cognition factors such as implicit bias can operate in conjunction with structural racialization.
